FUND 2024 report

a member owned program

\$66 MILLION SINCE 1993

\$5.3 MILLION RETURNED FOR 2024

46% AVERAGE PREMIUM RETURN

This member-owned program is exclusively represented by a carefully selected statewide network of independent insurance professionals that focus on the horticulture and floral industries.

To qualify as a member, the majority of payroll must fall into the wide range of classes and suppliers which include: wholesale & retail florists, nurseries, greenhouses, garden centers, landscape, lawn care, snow removal, irrigation, sod farms and cannabis growers.

mhifund.org

The MHI Fund was established in 1993 to help members control their long-term workers' compensation costs.

WORKPLACE SAFETY CREATES OUTSTANDING RETURN

Fund Members Receive Over \$5.3 Million

The Michigan Horticulture Industries Self-Insured Workers' Compensation Fund (MHI Fund) is pleased to announce that it will be distributing over \$5.3 million back to its members for the 2024 renewal. This represents an average return of 46% of a member's annual premium. This significant premium return demonstrates the Fund's commitment to providing financial benefits to its members.

The total profits returned since the Fund's inception in 1993, amounting to \$66,509,348, further highlights the Fund's long-standing success in providing substantial savings. It showcases the Fund's financial strength and its commitment to delivering value to its members.

As a member-owned program, the Fund operates with the best interests of its members in mind. The fact that all premium collected, which is not used for claims and administrative expenses, is returned demonstrates a testament to the Fund's dedication to reducing the members' overall workers' compensation insurance costs.

The MHI Fund recognizes the importance of accident prevention and proper claims management in keeping costs as low as possible for its members. To support this goal, the Fund offers a range of safety resources and loss control programs that are tailored specifically to the horticulture and floral industries.

One of the key focuses of the Fund's educational training is to create a safety culture in the workplace. This involves working closely with owners and supervisors to instill a mindset of prioritizing safety and implementing best practices for claims handling, accident investigation, and return-to-work programs.

By actively promoting a safety culture and providing members with the necessary tools and support, the Fund helps its members keep their costs down and maintain a safe working environment.

The Fund also collaborates with experienced loss control specialists who provide expert guidance and cost-saving solutions on safety and loss prevention. These specialists work closely with members to identify potential risks and develop strategies to mitigate them. By implementing effective safety measures and loss prevention techniques, members can reduce the frequency and severity of accidents, ultimately leading to lower costs.

The MHI Fund takes the handling of workers' compensation claims with great diligence. One way the Fund ensures cost control is by actively fighting fraudulent claims. By identifying and challenging fraudulent claims, the Fund protects its members' financial interests and helps maintain the integrity of the program.

Additionally, claim settlements within the Fund are required to be authorized by the Fund's Board of Trustees, which is comprised of actual members. This ensures that claim settlements are thoroughly reviewed and approved by those who have a vested interest in the Fund's financial stability.

To learn more about the Fund and its offerings, contact the Fund's Administrator, RPS Regency at 800.686.6640, or visit mhifund.org.

Congratulations on another excellent year! Commitment to diligent claims handling and cost control has contributed to the Fund's ongoing success.

Take Advantage of these

FREE Value-Added Resources

The MHI Fund is constantly searching for value-added services that are available to assist members in managing their business.

Midwest Employers Casualty Co.

The Fund's excess insurance carrier strives to provide "best in class" service to members by offering on-line risk management tools:

The **Difference** the **Fund Makes**

Our industry-specific resources encompass loss control, claim management and information services that help you develop and maintain a successful workers' compensation program.

Loss Prevention

Focus On A Safe Working Environment

Workplace safety cannot exist on best practice guidelines and policies alone. A safe working environment is based on how well your employees are trained, informed, adhere to and communicate about safety standards to reduce the risks for workplace injury and fatalities.

The MHI Fund offers a wide variety of workplace safety training; contact RPS Regency for more details on how to implement safety into your company's daily routine.

lifting/material handling

The following procedures can help reduce the potential for back injuries while lifting heavy objects: Plan ahead; assess the lift and your surroundings and be cautious when unloading. Knowing what you're doing and where you're going will prevent you from making awkward movements while holding something heavy.

PREPARATION

- · Size up the load. Do not lift too heavy, slippery, hot or unevenly balanced
- · Limit lifting heavy loads of 35lbs or more by hand
- Use the 'buddy system' to team lift or use material handling equipment
- Wear work gloves to prevent injury from staples or splinters

PROPER LIFTING TECHNIQUES

- · Lift with your legs, not your back
- · Limit the number of items you carry
- · Balance the load evenly and close to your body
- · Avoid awkward postures, don't over-reach
- · No heavy load above your waist

CARRYING THE LOAD

- · Make certain you can see over the load
- · Take small steps
- · Avoid turning or twisting
- Keep the load directly in front of your body between your shoulders and waist
- When using mechanical devices, push the load rather than pull the load. Use your body weight and legs to push the load.

PROPER UNLOADING

- Keep back straight; squat down with the load
- · Be care of your fingers

keys to accident prevention for managers

By involving your employees in the accident prevention process, you can tap into their knowledge and experience to identify hazards and develop effective solutions. This can be done through regular safety meetings, training sessions, and open communication channels.

ACCOUNTABILITY

Give employees ownership of planning and conducting inspections, for assessing their own data on work hazards, and for creating safety checklists.

LEADERSHIP

Set an example by always following your company's safety procedures. Make sure you personally take necessary steps to prevent accidents. Be on the lookout for potential hazards and point them out to your workers.

UNDERSTANDING

Emphasize that hazards put employees' personal health and safety at risk. Defuse or identify the longterm and short-term effects of accidents and the costs involved.

GOALS & COMMITMENT

Set clear standards for workplace behavior - and enforce them.

Work to get commitment to the idea that safety is the number one priority from every one of your employees.

COMPETENCE

Train employees well so that they have the information and develop the skills needed to work safely and avoid accidents. A "competent" person should be at every job site to insure the enforcement of safety policies.

RESPONSIVENESS & INVOLVEMENT

Make sure you respond promptly to identified hazards and take immediate steps to correct them.

Use every opportunity to encourage employees to play an active role in workplace safety and accident prevention. Apply the learning experience to help workers become more alert and more responsive to potential danger on the job.

FEEDBACK & PERSISTENCE

Praise employees who identify and correct hazards or who report problems they can't fix.

Continuous improvement is key in accident prevention. This involves setting new safety objectives and targets, tracking progress, and implementing measures to achieve them.

Fund Risk Management Services

Safety and loss avoidance are critical to the success of the Fund, as well as to the long-term success of your business. The Fund encourages all members to take advantage of the loss prevention services and tools available.

To take advantage of the safety and training resources available to Fund members, please contact RPS Regency 800-686-6640.
